

# 75 SERIES

1400KG RAMPS AT 2.1M LONG

## SPECIFICATIONS

**CAPACITY:** 1400kg per pair

**LENGTH:** 2100mm

**WIDTH:** 370mm overall

**WEIGHT:** 14kg each

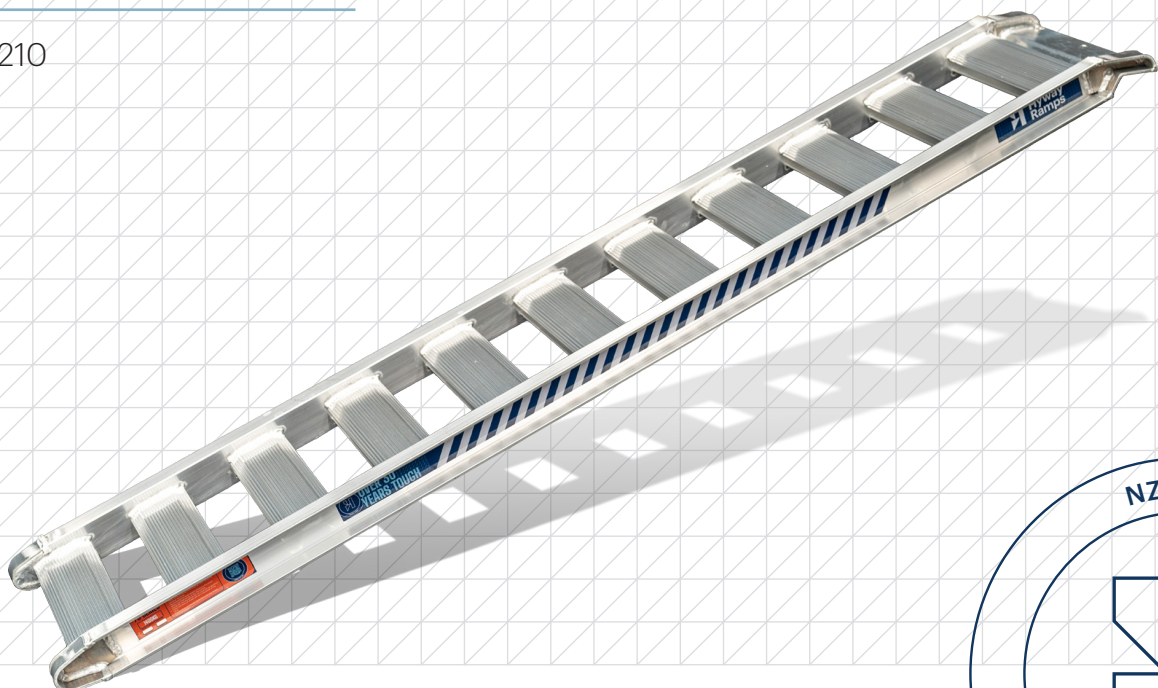

**HEIGHT SUITABILITY:** 630mm - 860mm

**SKU:** L75 210

## OVERVIEW

Our 1400kg rated ramps at 2.1m long, are short, but tough. Ideal for loading small excavators, commercial equipment and other small machinery. Loading your machinery onto your trailer will never be easier!

All Hyway ramps are made from high tensile aluminium, produced right here in New Zealand.

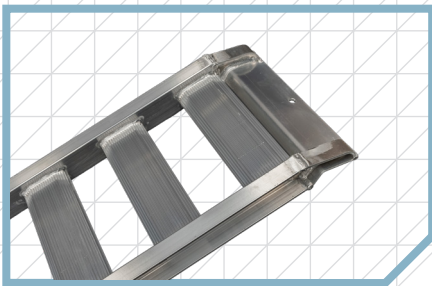

# THE FEATURES

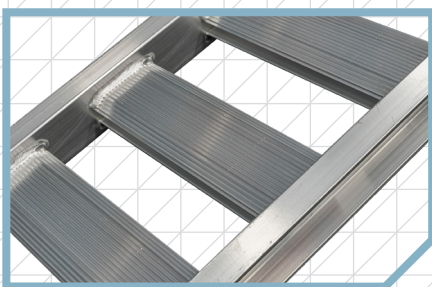

## CAPACITY

These ramps are rated for 1400kg **axle load** rating across the pair. The rated capacity must exceed the heaviest axle of the machine you are loading.

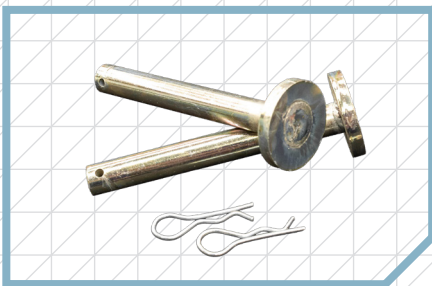

## HEADPLATE

The 1400kg ramps have a unique headplate, measuring 90mm which sits on the back of your truck deck. The headplate is positioned for a 20° loading gradient.

## RUNGS

Each rung is made out of high tensile aluminium extrusions produced right here in New Zealand. These 1400kg ramps have rungs 300mm wide, which are set down 20mm into the side beams. They have a serrated top surface, designed for superior traction.

## SECURING PINS

We recommend using the steel pins supplied, to secure the ramps to your deck through the headplate. This will prevent the ramps from creeping during loading and unloading.
